Item #220T641, Amana Tool Carbide-Tipped Laminate and MDF 220mm Dia x 64T TCG, 10 Deg, 30mm Bore - For Holtz-Her® 220mm Panel Saws **\$131.81**

Thank you for shopping with us!

This blade is ideal for cutting materials with fragile surface layers, such as veneers and laminates. High tooth count yields smooth finishes. The 10° hook angle provides effortless feeding. The triple-chip tooth opens a narrow kerf, and the raker widens it.

Note: P.H. denotes pin-hole configuration, if applicable. Example: 2/10/60 = 2 @ 10mm dia on 60mm circle.

Warning: Before use, read saw blade safety guidelines in [Amana's](#)

[catalog.](#)
