Item #38112, Century 1/2 in Shank, 12 in OAL Ship Auger Extension \$21.99

Thank you for shopping with us!

- Securely grips ship auger bits for extended lengths.
- To assure correct installation between ship auger and extension, make sure set screws are parallel with the flat area on the ship auger's shank before tightening down each set screw.

Failure to create this connection can result in product failure or injury.
