Item #4032, Century 32T x 12" Length Cobalt Bi-Metal Hacksaw Blades - 10-Pack

$39.99

Thank you for shopping with us!

• Century cobalt bi-metal blades offer a unique design that stays cooler and remains sharp while cutting hard materials like steel.
• One piece construction; cannot edge strip and avoids any of the weld line problems associated with other bi-metal blades.
• Century's staged heat treated process creates the strongest teeth (Rockwell hardness C65) while the backbone is heat treated to a lower degree (C42-C50) enabling its flexibility.
• Bends to a 1 1/2" Diameter
• Twist 360 degrees without breakage
• Shatterproof: breaks without shattering
