Item #43708, Amana Tool Solid Carbide Straight Plunge 3/16" x 7/16" x 1/4" Shank Router Bit - Single Flute

Thank you for shopping with us!

In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage.

For high volume, high speed cutting in dense natural woods and abrasive wood composites, use solid carbide bits. Solid carbide dissipates heat more uniformly, extending tool life. Single flute bits cut faster, with better chip clearance.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	3/16 in
Carbide H, or Cut H/L/W	7/16 in
Flute	1
Overall Length	2 in
RPM	Warning: Maximum RPM=28,000
Shank	1/4 in
