Item #45437, Amana Tool Carbide Tipped Undersized Plywood Dado Plunge 19/32" Dia x 1 1/4" x 1/2" Shank
$40.35

Thank you for shopping with us!

In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage.

Straight Plunge Fractional Sizes.

Cut dado and groove dimensions perfectly for plywood, flakeboard, and other sheet materials for which standard size bits are too large.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	19/32 in
Carbide H, or Cut H/L/W	1 1/4 in
