Amana Tool Keller™ Dovetail System 9/16" D x 3/4" CH x 1/4" Shk Straight Cutter Carbide-Tipped w/Upper Ball Bearing - Keller #3032

**MAKE CLEAN & BEAUTIFUL DOVETAIL JOINTS!**

The dovetail joint is the strongest construction method for drawers, boxes, chests, and fine casework. Amana Tool® designs the bits needed by many router dovetail jigs that require cutting half-blind and through dovetails. We carry the bits for name-brand dovetail jigs, including Leigh®, Keller™, Omnijig®, and Incra®.

The popular Keller™ Templates require the use of straight and dovetail bits with shank-mounted pilot bearings. These bits are specifically designed for use in the Keller™ system.
