Amana Tool Leigh® Jig Straight Carbide-Tipped 1/2" D x 1 1/4" CH x 1/2" Shk Bit 2-Flute - Leigh® #160

MAKE CLEAN & BEAUTIFUL DOVETAIL JOINTS!

The dovetail joint is the strongest construction method for drawers, boxes, chests, and fine casework. Amana Tool® designs the bits needed by many router dovetail jigs that require cutting half-blind and through dovetails. We carry the bits for name-brand dovetail jigs, including Leigh®, Keller $^{\text{m}}$, Omnijig $^{\text{m}}$, and Incra $^{\text{m}}$.

Leigh® dovetail jigs use 8° dovetail bits for through dovetail tails. These are three straight bits used in the jig to cut depths relative to the pin board or drawer front for that look of a hand-cut sophistication.
