Item #45500, Amana Tool Carbide-Tipped Mortising 1/2" Dia x 3/4" x 1/4" Shank \$22.40

Thank you for shopping with us!

Cutting mortises for hinges and locks can be challenging: the mortise depth must be accurate for smooth operation and the edges must be sharp for a clean, professional installation. These mortise bits make hardware installation a snap. The large gullet (see images) between the two flutes quickly clears chips away and the cutter geometry creates a crisp outline for a perfect fit.

Note: A proper mortising bit should have a large gullet (as shown in the image below) between the two flutes. This allows greater chip clearance and removal.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	1/2 in
Cut Height, Length, or Width	3/4 in
Flute	2
Overall Length	2 in
Shank	1/4 in
