### Item #45505, Amana Tool Carbide-Tipped Mortising 1 1/4" Dia x 3/4" x 1/2" Shank \$38.63

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping.

Cutting mortises for hinges and locks can be challenging: the mortise depth must be accurate for smooth operation and the edges must be sharp for a clean, professional installation. These mortise bits make hardware installation a snap. The large gullet (see images) between the two flutes quickly clears chips away and the cutter geometry creates a crisp outline for a perfect fit.

Note: A proper mortising bit should have a large gullet (as shown in the image below) between the two flutes. This allows greater chip clearance and removal.
