Amana Tool 9° Angle Dovetail 3/8" D x 3/8" CH x 1/2" Shk Carbide-Tipped Bit

MAKE CLEAN & BEAUTIFUL DOVETAIL JOINTS!

The dovetail joint is the strongest construction method for drawers, boxes, chests, and fine casework. Amana Tool® designs the bits needed by many router dovetail jigs that require cutting half-blind and through dovetails. We carry the bits for name-brand dovetail jigs, including Leigh®, Keller™, Omnijig®, and Incra®.

The 9° dovetail bit is used for certain operations with the Incra® dovetail system.
