Item #46385-K, Amana Tool Solid Carbide Spektra™ Extreme Tool Life Coated Up-Cut Ball Nose Spiral 1/16 Radius x 1/8 Dia x 1/2 Inch x 1/4 Shank Router Bit

$68.48

Thank you for shopping with us! Used for carving decorative doors and sign manufacturing. Upcut design leaves an excellent finish and expels chips quickly. Excellent for Cutting: -Soft/Hard Wood -MDF -Soft/Hard Plastic -Sign Foam. Our Spektra™ bits feature a nACo® nanocomposite coating with an extreme nanohardness and heat resistance. With a brilliant distinctively-tinted coloring, nACo® provides additional improvements in four critical aspects of router tooling: -nACo® coating is a micro-thin ceramic coating that enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality. -Coating prevents high heat and oxidation, which is detrimental to cutting tool performance. -Multi-colored hues, while attractive, will dissipate upon use and yet coating will remain fully effective. -nACo® offers approximately 4,500 Vickers for impressive solid hardness on cutting areas of the tool, for an increase up to 2.5 times compared to uncoated bits. Note: Blue based color dissipates immediately upon use. nACo® nanocomposite coating will not wear off.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	1/8 in
Carbide H, or Cut H/L/W	1/2 in
Flute	2
Overall Length	3 in
Radius	1/16 in
Shank	1/4 in
