\$51.79

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping

This adaptable double bearing guided cutter has down-shear design, which ensures a clean cut even in difficult materials. The two-bearing design allows the cutter to be used with the template mounted on either side of the work, and consequently, it is possible to cut from either direction using only one template without moving the template to the other side of the workpiece. This is especially useful when cutting curves that run both with and against the grain.

Bearings: Upper - 47721(2); Lower - 47714

AMAX Extended Life Features:

200% longer life-time even when working with abrasive materials

Superior geometric design

Advanced grinding technology that improves the carbide's resistance to wear

Super clean cuts

SPECIFICATIONS

Bearing(s)	47714, Amana Tool 1/4 ID x 3/4 OD x .280 Thick Steel Ball Bearing Guide 47721, Amana Tool 1/2 ID x 3/4 OD x .156 Thick Steel Ball Bearing Guide
