Item #47725, Amana Tool Ultra-Glide™ High Performance Ball Bearing .965 Overall Dia x 1/4 Inner Dia x 10 Deg Taper \$28.05

Thank you for shopping with us!

Using the same quality standards as our regular steel bearings, these Ultra-Glide™ bearing assemblies feature satin-smooth Delrin® sleeves. Delrin® is an industrial synthetic plastic material similar to nylon, and will leave no marks on the material being cut. Applications include solid-surface materials such as Gibraltar®, Corian®, Surell®, Fountainhead®, Plexiglas® & other clear acrylics, and plastic laminates. Not recommended for regular wood applications due to a higher wear factor.

Item number 47725 includes Teflon® dust shields. Provides a better seal to increase bearing life while routing materials that generate very fine dust particles (such as solid surface).

SPECIFICATIONS	
Manufacturer	Amana Tool
Application	Old style 57122 bevel bit with 31/32 in large diameter
Cut Depth	
Inside Diameter	
Note	
Outside Diameter	
Radius	
Angle	10 deg
