## Item #49515, Amana Tool Corner Rounding Carbide-Tipped 2-Flute w/Ball Bearing Guide \$78.42

Thank you for shopping with us!

A basic edge-forming bit, the corner-rounding bit rounds an edge to a given radius. The tool is shouldered to cut a fillet. The cut can be used to ease edges, as a simple profile, or as part of a complex one. Also known as a roundover, rounding over, and quarter-round. If a smaller pilot bearing is used, a second shoulder can be produced, in effect making the bit a beading bit.

| SPECIFICATIONS               |             |
|------------------------------|-------------|
