Item #49543, Amana Tool Corner Rounding Carbide-Tipped 1 5/8" Dia x 1/2" Radius x 11/16" x 1/2" Shank 4-Flute w/Ball Bearing Guide \$53.74

Thank you for shopping with us! The basic edge-forming bit, the corner-rounding bit rounds an edge to a given radius. The tool is shouldered to cut a fillet. The cut can be used to ease edges, as a simple profile, or as part of a complex one. Also known as a roundover, rounding over, and quarter-round. If a smaller pilot bearing is used, a second shoulder can be produced, in effect making the bit a beading bit. Four Flute design for super smooth finish.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	1 3/8 in
Cut Height, Length, or Width	5/8 in
Diameter (D1)	5/8 in
Bearing(s)	47712 Corner Round / 47701 Beading
