Item #49556, Amana Tool Hand/Table Edge Carbide-Tipped 2 1/2" x 13/32" x 13/64" R x 1/2" Shank 2-Flute w/Ball Bearing Guide **\$127.05**

Thank you for shopping with us!

These special router bits are used for cutting tabletop edges or used with handrail side profile bits. Originally designed for easing and profiling the edges of tabletops, these bits also are widely used on handrails for the same purpose. (Refer to images for handrail patterns). With these bits, simultaneously eliminate hard edges, reduce the visual thickness of a tabletop, and add an elegant detail.

Ogee & Bead: Cuts a shallow ogee into the tabletop surface coupled with a bead at the edge. Bit will produce a fillet if set to cut deep enough. With the optional 3/8" bearing, will produce a fillet at the cut's edge. Good choice for handrails.

Warning: Maximum RPM = 16,000

SPECIFICATIONS	
Manufacturer	Amana Tool
B1	
Diameter	2 1/2 in
Bearing(s)	Standard 1/2 in bearing 47706 included; Optional 3/8 in bearing 47702 order separately
Cut Height, Length, or Width	25/32 in
Flute	2 w/Bearing
Overall Length	2 3/4 in
Radius	13/32 in
R1/Radius	13/64 in
Shank	1/2 in
Type	Ogee & Bead
RPM	Warning: Maximum RPM = 16,000
