Item #49701, Amana Tool Roundover Groove .615" Dia x 3/16" Radius x 1/2" Shank 2-Flute Carbide-Tipped Router Bit \$43.65

Thank you for shopping with us! This bit creates a flat-bottom groove between two quarter-round shapes. Short vertical walls extending below the radius lend extra depth to the appearance. Depending on the cut depth adjustment, the radii can be flush with the work surface, an edge guide, or on the router table using a fence.
