### Item #51463, Amana Tool CNC SC Spiral for Steel & Stainless Steel w/ AlTiN Coating 3/16" D x 3/8" CH x 3/16" Shank Upcut Router Bit / 45° Corner Chamfer End Mill **\$37.31**

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping.

These router bits are manufactured from our exclusive ultra-fine micrograin carbide and feature a 30° Center Cutting Mill End with a 45° corner chamfer (for extra strength) upcut design and—very important—Aluminum Titanium Nitride (AlTiN) coating for superior cut quality. Increase the ruggedness of your solid carbide end mill's number one major wear point by the addition of corner chamfers that enhance the edge strength.

Excellent for cutting: stainless steel, steel, low carbon steel, cast iron, titanium, super alloys, aluminum, brass, bronze, copper, gold, silver, magnesium, plastics, composites, materials up to 40 HRC hardness.

These bits are perfect for the sign-making industry. Our special carbide grade combined with the AlTiN coating gives amazing performance. The unique corner chamfer gives the bits great strength. Center Cut Helical.

#### AlTiN coating has many benefits:

- Extra wear resistance
- Allows for faster feed and speed rates
- Cutting edge protected from wear
- Better chip evacuation
- Less heat build up
- Superior cutting quality and extended tool life

**Max RPM: 28,000**

## SPECIFICATIONS

Cut Height, Length, or Width	3/8 in
Flute	2
