## Item #514841, Amana Tool Carbide-Tipped Aluminum & Non-Ferrous Metals 14 Inch Dia x 84T TCG, -6 Deg, 1" Bore - For Thick Aluminum \$169.21

Thank you for shopping with us! For Thick Aluminum (over 0.25")

Ideal for cutting aluminum and non-ferrous metal bars such as copper, brass, bronze, and lead. It is also good for cutting extrusions and profiles. The negative hook angle  $(-6^{\circ})$ , triple-chip grind, and thick plate combine to produce a superior finish. The blade can also be used to cut other "difficult" materials such as plastic, PVC tubing, fiberglass, and ACM such as Alucobond®, Dibond®, and Durabond. Use a coolant or blade wax and clamp down the workpiece when cutting non-ferrous metals.

Warning: Never attempt to cut ferrous metals (steel, iron, etc.) with these saw blades!

SPECIFICATIONS	
Manufacturer	Amana Tool
Bore	1 in
Diameter	14 in (350 mm)
Grind	TCG
Hook Angle	6 deg negative hook
Kerf	0.126

SPECIFICATIONS	
Pinholes	
Plate	.102 in
Teeth	84
Material	For Thick Aluminum (over 0.25 in)
