Item #51586, Amana Tool Carbide-Tipped Convex Edging 23/32 Radius x 29/32 Dia x 1/2 Inch Shank \$47.63

Thank you for shopping with us! Amana Tool Carbide-Tipped Convex Edging 23/32 Radius x 29/32 Dia x 1/2 Inch Shank Cuts a shallow arc—the fingernail shape—rather than a full 180° roundover. Like the bullnose radius bit, it has short flats above and below the cutter arc, which produce fillets on stock thicker than 7/8". Must be used with an edge guide on handheld routers, or the fence on a router table.

#47712 (2). Not for use in CNC Machines.

Use replacement bearing

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	29/32 in
B1	27/32 in
Cut Height, Length, or Width	1 1/4 in
