Item #516961, Amana Tool Carbide-Tipped Aluminum & Non-Ferrous Metals 16 Inch Dia x 96T TCG, -6 Deg, 1" Bore - For Thick Aluminum \$248.86

Thank you for shopping with us! For Thick Aluminum (over 0.25")

Ideal for cutting aluminum and non-ferrous metal bars such as copper, brass, bronze, and lead. It is also good for cutting extrusions and profiles. The negative hook angle (-6°) , triple-chip grind, and thick plate combine to produce a superior finish. The blade can also be used to cut other "difficult" materials such as plastic, PVC tubing, fiberglass, and ACM such as Alucobond®, Dibond®, and Durabond. Use a coolant or blade wax and clamp down the workpiece when cutting non-ferrous metals.

Warning: Never attempt to cut ferrous metals (steel, iron, etc.) with these saw blades!

| SPECIFICATIONS | |
|----------------|---------------------|
| Manufacturer | Amana Tool |
| Bore | 1 in |
| Diameter | 16 in (400 mm) |
| Grind | TCG |
| Hook Angle | 6 deg negative hook |
| Kerf | 0.15 |
