Item #52720005, FS Tool XL4000 Extended Life Conic Scoring Saw Blades \$322.28

Thank you for shopping with us!

XL4000: 20 years of development has refined every aspect of our saw blade manufacturing, materials, and geometries. We offer nearly 1500 models all derived from the same engineering resources compiled over three decades of application experience. From plate to finished saw blade, each is manufactured using the latest technology. Once the plate has been transformed into the most formidable TCT saw blade on the market, it undergoes a nearly artisan, manual tensioning process. Renowned as the premier saw blade available throughout our industry, the XL4000 series will provide measurable cost savings by reducing machine downtime and by increasing your production's efficiency and quality of cut.

- Exceptional Tensioning
- Polished Plate
- Application-specific cutting geometries
- XL4000 Submicron grade carbide teeth
- Oversized teeth

Design:

- Tooth configuration: Conical ATB
- Cutting material: TC **XL4000**
- Expansion slots: Cu plugged

Application:

- For pre-scoring in plastic laminated sheets
- On panel sizing saws with pre-scoring units

SPECIFICATIONS

Diameter	200 mm
Bore	20 mm
Grind	Conical ATB
Kerf	5.5/6.5 mm
Machine	Schelling
Manufacturer	FS Tool
Plate	4.0 mm
Teeth	36
