Item #535008, FS Tool Industrial Quality Segmented Hogging Units: Spare Segments

\$104.50

Thank you for shopping with us! **Design:**

- Hogger body made of light alloy equipped with 4 or 6 segments and 1 saw blade; all TC-tipped, replaceable and resharpenable
- Standard chipping width 30mm; wider chipping widths in multiples of 30mm can be achieved by adding multiple elements, which must be specified when ordering

Application:

- For chip-free sizing of panel materials on double-end tenoners and trimming machines
