Thank you for shopping with us! Amana Tool Carbide-Tipped Multi-Sided Glue Joint 60/30 Deg x 1-7/8" Dia x 1-1/4" CH x 1/2" Shank - 6- or 12-Sided If you are looking for a better way to construct multi-sided boxes, planters, and columns, then you can stop looking. With these bits, there's no need for complex miters and time-consuming set-ups. Instead, simply choose the bit based on the number of sides on the box, rout the joint, and assemble. Unlike a miter joint, the joint created by these bits aligns itself. And the joint stays in alignment while gluing—no more slipping and sliding out of position.
