Amana Tool Carbide-Tipped Base Molding Ogee Edge Detail 19/64" x 13/32" Radius x 1 53/64" Dia x 1/2" Shank 2-Flute

One of the easiest ways to dress up a room is to replace the skimpy base molding with a wide, bold profile. Amana Tool® offers classic ogee profiles in two sizes so that you can choose a size that best fits with the architectural details of the room. For quick easy installation, we recommend that you attach the molding to the top of the base. This method greatly simplifies installation by allowing for a butt joint on inside corners.

Replacement parts: bearing #47706; screw #67014
