Item #54412, Amana Tool Carbide-Tipped Reversible Crown Molding 3/8" x 7/8" x 7/16" Radius x 1-1/4" Dia x 2-7/16" x 1/2" Shank
\$92.61

Thank you for shopping with us! **Give your ceilings that finished look!** With this bit you can easily make classic crown moldings with your table-mounted router. The beautiful profile is a large cove flanked by roundovers. Use your fence to control the cutting depth and a featherboard to keep the stock firmly positioned against the fence. Bevel back edges, cutting off 45° excess with one of our chamfer bits. Can be used with other crown molding bits to create many different combinations!
