Now you can make large cove moldings for furniture and trim with your table-mounted router. This unique bit cuts a large, smooth arc—just what is needed to create a cove-shaped crown molding for your next piece of furniture casework. Bevel back edges, cutting off 45° excess with one of our chamfer bits. For even greater versatility, combine this bit with our [crown molding profiles](#).

Can be used with other crown molding bits to create many different combinations!
