Item #57190, Amana Tool Carbide-Tipped Corner Rounding with Ultra-Glide™ Radius Bearing Guide Solid Surface 1-5/8" Dia x 3/4 x 1/2" Radius x 1/2" Shank

\$79.39

Thank you for shopping with us! A unique pilot bearing allows you to produce a true 180° bullnose with this corner rounding bit. Unlike a regular square-edge bearing, it follows the radiused surface produced on the first pass. Will neither leave a flat spot nor gouge the edge. Use the (optional) regular 1/4" x 5/8" steel bearing for the first pass. Standard steel 1/4" x 5/8" bearing—use #47712 - order separately
