Item #610504C, Amana Tool Carbide-Tipped Prestige® Combination Ripping and Crosscut 10 Inch Dia x 50T 4+1, 15 Deg, 5/8 Bore \$92.87

Thank you for shopping with us! Where one blade must do almost everything - ripping and crosscutting hardwood and softwood, cutting plywood - this blade is a good choice. It is in the traditional combination-blade configuration, with a flat-top tooth and 4 alternate top bevel teeth in groupings of five. The large gullets at the raker tooth allow deep cuts with improved chip ejection.
