Item #610601C, Amana Tool Electro-Blu™ Carbide-Tipped Heavy Duty General Purpose 10 Inch Dia x 60T TCG, 10 Deg, 5/8 Bore, Non-Stick Coated \$80.81

Thank you for shopping with us!

While this blade handles general trimming and crosscutting of hardwood and softwood, plywood and composition materials, it excels at cutting single- or double-sided plastic laminated material. It leaves a smooth clean chip-free finish on the top and bottom edges. The blades in this series feature a high tooth count, triple-chip grind, and a 10° hook angle for a successful compromise between feed effort and cut finish.

Benefits of Electro-Blu™ Coating

Reduces resin accumulation and heat build-up. Tips stay sharper longer resulting in extended blade life. Applied by using an electrostatic bonding process.

Warning: Before use, read saw blade safety guidelines in [Amana's catalog](#).
