Item #610721, Amana Tool Carbide-Tipped Solid Surface 10 Inch Dia x 72T MTC, 0 Deg, 5/8 Bore \$111.19

Thank you for shopping with us! This blade is designed for cutting plastic laminate, Plexiglas®, and solid surface materials such as Dupont Corian®, Wilsonart®, Gibraltar®, and Fountainhead®. The triple-chip grind is especially configured to leave a swirl-free cut in solid surface materials. Thick, stable plate reduces vibration that degrades the cut and shortens tool life. The blade is suitable for a variety of saw configurations. The 0° hook angle virtually eliminates self-feeding when used with a radial arm saw.

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	10 in (250 mm)
Bore	5/8 in
Grind	MTC
Kerf	0.126 in
Pinholes	--
