Item #610721C, Amana Tool Electro-Blu™ Carbide-Tipped Solid Surface 10 Inch Dia x 72T MTC, 0 Deg, 5/8 Bore, Non-Stick Coated \$123.30

Thank you for shopping with us!

This blade is designed for cutting plastic laminate, Plexiglas®, and solid surface materials such as Dupont Corian®, Wilsonart®, Gibraltar®, and Fountainhead®. The triple-chip grind is especially configured to leave a swirl-free cut in solid surface materials. Thick, stable plate reduces vibration that degrades the cut and shortens tool life. The blade is suitable for a variety of saw configurations. The 0° hook angle virtually eliminates self-feeding when used with a radial arm saw.

Warning: Before use, read saw blade safety guidelines in [Amana's catalog](#).

Benefits of Electro-Blu™ Coating

Reduces resin accumulation and heat build-up
Tips stay sharper longer resulting in extended blade life
Applied by using an electrostatic bonding process

SPECIFICATIONS	
Diameter	10 in (250 mm)
Bore	5/8 in
Grind	MTC
Kerf	0.126
Pinholes	--
Plate	.095 in
Teeth	72
Manufacturer	Amana Tool
