## Item #614540, Amana Tool Carbide-Tipped General Purpose 14 Inch Dia x 54T ATB, 15 Deg, 1" Bore \$171.23

Thank you for shopping with us!

While similar in most aspects to the Multi-Use Ripping/General Purpose blade, this one has a slightly lower hook angle (15°). That lower angle improves the surface quality of the cut while increasing the feed pressure required. This blade is a good choice for general purpose ripping and crosscutting of hardwoods and softwoods in a range of thicknesses, with occasional cutting of plywood and other man-made materials.

Warning: Before use, read saw blade safety guidelines in <u>Amana's</u> <u>catalog.</u>
