Item #614704, Amana Tool Carbide-Tipped Combination Ripping and Crosscut 14 Inch Dia x 70T 4+1, 15 Deg, 1 Inch Bore \$244.62

Thank you for shopping with us! Where one blade must do almost everything – ripping and crosscutting hardwood and softwood, cutting plywood – this blade is a good choice. It is in the traditional combination-blade configuration, with a flat-top tooth and 4 alternate top bevel teeth in groupings of five. The large gullets at the raker tooth allow deep cuts with improved chip ejection.
