Item #616600-30, Amana Tool Carbide-Tipped General Purpose 16 Inch Dia x 60T ATB, 15 Deg, 30mm Bore \$183.44

Thank you for shopping with us!

While similar in most aspects to the Multi-Use Ripping/General Purpose blade, this one has a slightly lower hook angle (15°). That lower angle improves the surface quality of the cut while increasing the feed pressure required. This blade is a good choice for general purpose ripping and crosscutting of hardwoods and softwoods in a range of thicknesses, with occasional cutting of plywood and other man-made materials.

Warning: Before use, read saw blade safety guidelines in <u>Amana's</u> <u>catalog</u>.

SPECIFICATIONS
