Item #6206, Century 6T x 3 5/8" Length x .040" Thick Universal Shank Bi-Metal Jig Saw Blade
$3.99

Thank you for shopping with us!
• Century bi-metal jig-saw blades offer a carbon alloy backbone and a cobalt alloy high speed steel teeth for maximum performance.
• Carbon alloy backbone allows for blade flexibility and absorbs shock when cutting difficult materials.
• Cobalt high speed steel teeth offer the best wear resistance in all types of cutting materials.
• Century bi-metal jig-saw blades are designed for performance, lasting 5X longer than carbon alloy blades.
