Item #7010L, Freud Carbide-Tipped Boring Bit Countersink

\$21.93

Thank you for shopping with us! Freud's carbide-tipped boring bit countersinks are engineered to meet the most demanding industrial applications. They simply slip over the body of boring bits, and are held in place with a set screw. Application: Countersinks all composition materials, solid surface materials, plywood, hardwood, and softwood. Use with carbide-tipped boring bits on automatic or manual multi-spindle boring machines.
