Item #8001968, Whiteside Machine 1 31/32" Self Clean™ Hole Saw - Carbide-Tipped **\$119.10**

Thank you for shopping with us!

The Self Clean™ Hole Saw brings about a new generation of hole saws. Marine manufacturers were consulted in their development. The tool saws faster than conventional hole saws plus saves additional time because the plug falls out of the tool when the cut is finished. Made from high grade steel, carbide-tipped, and produced specifically for cutting fiberglass. The quick change system further increases productivity when moving from one hole size to another. Can be resharpened or re-tipped.

Note:

- Hole saws are typically sold as a kit
- To order a hole saw without the kit, remove the " K" from the part #
- Additional sizes are available by custom order
