Item #803-730, Mastercut 2 Flute O Flute Straight Cut (Soft Plastics) \$85.46

Thank you for shopping with us!

Material Finish-Top: Excellent Material Finish-Bottom: Excellent

2 Flute routers work well with harder materials, providing an excellent finish to the material.

Endmill points are most often found on 3 and 4 flute routers. They are good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.

Straight flute router bits are generally used for routing plastics and other soft materials. They're a great choice for hand feed operations.
