Item #8050562, Whiteside Machine 9/16" Transom Drill - 5" OAL Quick Change Shank **\$95.19**

Thank you for shopping with us! A shorter, more compact version of the 8" Transom Drill. The carbide-tipped vee point offers the toughest and most durable drill point. The flute design facilitates easy chip evacuation. This drill will go through thick composites in half the time and lasts up to 20 times longer than high speed jobber drills. Can be resharpened or re-tipped.
