Thank you for shopping with us!

Heavy-duty construction for drilling in tougher materials •

Manufactured from premium high-speed steel • 135° split point is self-centering for reducing thrust and easier penetration •

Provides exceptional oxidation resistance and extreme hardness

• TiCN is harder and has a lower coefficient of friction than TiN coating

• Recommended where moderate temperatures are generated •

Manufactured to NAS 907B aerospace specification

TiCN Coating - Titanium carbide nitride (TiCN) coating raises cutting surface hardness, greatly increasing resistance to wear.
