### **Item #806-008, Mastercut 1/2 in Dia, 1 1/8 in CH, 3 1/2 in OAL, 1/2 in Shank, 2 Flute O Flute Upcut Slow Spiral (Soft & Hard Plastics), Endmill**

**\$83.28**

Thank you for shopping with us!

Material Finish-Top: Poor  
Material Finish-Bottom: Excellent

Spiral flute router bits should only be used in automatic feed operations. They're good for use on all materials.

Upcut routers are used when a good bottom finish is desired on the material. Chips flow in an upward direction.

2 flute routers work well with harder materials, providing an excellent finish to the material.

Endmill Points are most often found on 3 and 4 flute routers. They are good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.
