Item #809-204, Mastercut 2 Flute Upcut Spiral Chipbreaker Finisher (High Impact) \$128.03

Thank you for shopping with us!

Material Finish-Top: Poor

Material Finish-Bottom: Excellent

Spiral flute router bits should only be used in automatic feed operations. They are good for use on all materials.

2 flute routers work well with harder materials, providing an excellent finish to the material.

Upcut routers are used when a good bottom finish is desired on the material. Chips flow in an upward direction.

Endmill Points are most often found on 3 and 4 flute routers. They are good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.

SPECIFICATIONS	
Diameter	1/2 in
Cut Height, Length, or Width	1 1/8 in
End Pt Type	Endmill
Flute Geometry	Upcut
Flute	2
Helix Angle	30 deg
Overall Length	3 in
Shank	1/2 in
Manufacturer	Mastercut
