Item #8090750, Whiteside Machine 3/4" Composite Drill w/Pilot Drill 3 7/8" OAL Carbide-Tipped Quick Change Shank **\$107.19**

Thank you for shopping with us!

These drills have all the attributes of the [803 series](#) but with a larger 1/4" diameter center hole as requested by industrial users. This bit is supplied with a 1/4" taper point drill bit that allows better control when trying to make a gentle entry. These bits can also be used with the 1/4" pilot rod (also supplied) in applications that follow a 1/4" pre-drilled guide hole. This series has proven to be very effective in soft, gummy materials such as King Starboard®. Can be resharpened or re-tipped.

Note:

- Each 809 Series Drill is supplied with a 1/4" Tapered Point Drill bit, a 1/4" Pilot Rod, and a 3/32" Hex Key Wrench
