Item #8100500, Whiteside Machine 1/2" Brad Point Transom Drill - 5" OAL Quick Change Shank
\$102.43

Thank you for shopping with us!

These self-centering Transom Drills have several design attributes that save time and money. Designed to make clean, accurate cuts in gelcoat with minimal chipping and "blowout." Features a "climbing flute" for easy chip evacuation (self-cleaning, no pecking). The center point produces no "walking" during entry. Can be resharpened or re-tipped.
