Finish-Bottom:  
Excellent

Endmill Points  
are most  
often found  
on 3 and 4  
flute routers.  
They are good  
for achieving  
a smooth  
finish on a flat  
bottom  
surface, and  
are commonly  
used in the  
plastic routing  
industry.  
Straight flute  
router bits are  
generally  
used for  
routing  
plastics and  
other soft  
materials.  
They are a  
great choice  
for hand feed  
operations.

### SPECIFICATIONS

**Diameter**

1/8 in
