Taper Shank
High-Speed
Steel,
Surface
Treated

These
Special Hi-
Tungsten
tool steel
reamers with
gold surface
treated body
and
clearance
are designed
to be used
with Morse
Taper shank
equipment.
They are
available in
both straight
and spiral
flute
configuration
and are
designed for
heavy-duty
reaming as
encountered
in the
fabrication
of structural
steel
assemblies,
bridge
erection, and
ship
construction.
The tapered
design
permits the
reamer to
enter out-of-
line holes
often
encountered
in structural
work.
