### **Item #AMS-183-K, Amana Tool 3-Piece Spektra™ Extreme Tool Life Coated Compression Spiral CNC Router Bit Pack**

**\$235.16**

Thank you for shopping with us! Special unique carbide for longer lifetime in abrasive material. Designed for CNC applications requiring high feed rates and a clean finish. Particularly suitable for double-sided melamine or laminated material. Flawless compression cuts. Our Spektra™ bits feature a nACo® nanocomposite coating with an extreme nanohardness and heat resistance. With a brilliant distinctively-tinted coloring, nACo® provides additional improvements in four critical aspects of router tooling: -nACo® coating is a micro-thin ceramic coating that enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality. -Coating prevents high heat and oxidation, which is detrimental to cutting tool performance. -Multi-colored hues, while attractive, will dissipate upon use and yet coating will remain fully effective. -nACo® offers approximately 4,500 Vickers for impressive solid hardness on cutting areas of the tool, for an increase up to 2.5 times compared to uncoated bits. Note: Blue based color dissipates immediately upon use. nACo® nanocomposite coating will not wear off. Excellent for cutting: CFRP, Double-Sided Melamine, Laminate, Melamine Particle Board, MDF, Oriented Strand Board (OSB)\*, Veneered Plywood, Softwood/Hardwood \*Oriented Strand Board is an engineered wood particle board.

#### SPECIFICATIONS

<b>Manufacturer</b>	Amana Tool
<b>Includes</b>	46172-K, 46188-K, 46170-K
<b>Part Descp.</b>	3-Piece Spektra Extreme Tool Life Coated Compression Spiral CNC Router Bit Pack
