Item #AMS-234-K, Amana Tool 3-Pc CNC Spektra™ Extreme Tool Life Coated Starter Pack, 1/4 Inch Shank \$139.61

Thank you for shopping with us! Designed specifically for a wide variety of applications. Also perfect for signmaking. Each router bit is manufactured from Amana's exclusive grade carbide according to stringent quality standards. Designed for cutting: -Laminate -MDF -Wood -Veneered Plywood Our Spektra™ bits feature a nACo® nanocomposite coating with an extreme nanohardness and heat resistance. With a brilliant distinctively-tinted coloring nACo provides additional improvements in four critical aspects of router tooling.

- nACo coating is a micro-thin ceramic coating, which enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality.
- Coating prevents high heat and oxidation, which is detrimental to cutting tool performance.
- Multi-colored hues, while attractive, will dissipate upon use and yet coating will remain fully effective.
- nACo offers approximately 4,500 Vickers for impressive solid hardness on cutting areas of the tool, for an increase up to 2.5 times compared to uncoated bits.

Note: Blue based color dissipates immediately upon use. nACo® nanocomposite coating will not wear off.

SPECIFICATIONS	
Manufacturer	Amana Tool
Includes	Spektra Spiral Plunge & Compression Spiral Router Bits
Part Descp.	3-Pc CNC Starter Set
