Item #AMS-236-K, Amana Tool 3-Piece Upcut Solid Carbide Spektra™ Extreme Tool Life Coated Spiral Router Bit Pack

\$126.68

Thank you for shopping with us! Designed for a wide variety of applications. Each router bit is manufactured from Amana's exclusive grade carbide according to stringent quality standards. Our Spektra™ bits feature a nACo® nanocomposite coating with an extreme nanohardness and heat resistance. With a brilliant distinctively-tinted coloring nACo provides additional improvements in four critical aspects of router tooling. nACo coating is a micro-thin ceramic coating which enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality. Coating prevents high heat and oxidation which is detrimental to cutting tool performance. Multi-colored hues, while attractive, will dissipate upon use and yet coating will remain fully effective. nACo offers approximately 4,500 Vickers for impressive solid hardness on cutting areas of the tool, for an increase up to 2.5 times compared to uncoated bits. Note: Blue based color dissipates immediately upon use. nACo® nanocomposite coating will not wear off. Excellent for cutting: MDF/HDF Veneered Plywood Laminate Composite

SPECIFICATIONS

Manufacturer	Amana Tool
Includes	46102-K 1/4 in dia, 46126-K 1/8 in diameters, 46320-K 3/8 in dia
Part Descp.	3-Piece Upcut Solid Carbide Spektra Extreme Tool Life Coated Spiral Router Bit Pack
